DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Notice of Allowability

2. Claims 1-18 and 27 (renumbered as 1-19) are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or fairly teach a method for framing data in a receive deserializer circuit comprising receiving serial data including a reference pattern, retiming the data to a recovered clock as sampled data, deserializing the sampled data into a parallel word timed to a word clock, comparing the parallel word with a preset reference pattern until a match results, generating a shift pulse when there is no match, dividing the received clock into phase clocks including the word clock and disabling the phase clocks for one bit periods each time the shift pulse is generated, all of which is recited in independent claims 1, 10 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
